

From the LISA-CNR Review Panel

Results of Call II-2016 – To be published on the Web Site of LISA a ESRF

23 June 2016

During the Second Semester 2016, the whole set of shifts reserved to the Italian Community will be allocated and scheduled, namely 2 Active Long Term Projects (36 shifts), 1 New Long Term Project (18 shifts), 5 Rolling Projects (72 shifts) and 3 Rolling Projects in the Reserve List.

The schedules for the present and forthcoming runs will be soon available at the following [page](#).

According to the previously announced main scoring criteria, the CNR panel has selected the followings Italian Projects:

Active Long Term Projects

- 08-01 0995** Scientific area or the Proposal: HC - Hard Condensed Matter Science
Dott. Sara Laureti, ISM-CNR (Monterotondo, Roma) - Long Term Project 4th set – 18 shifts assigned
- 08-01 1004** Scientific area or the Proposal: CH – Chemistry
Dott. Alessandro Minguzzi, Univ Milano - Long Term Project – 3rd set - 18 shifts assigned

New Long Term Project

- 08-01 1031** Scientific area or the Proposal: Earth and Environment
Dott. Augusto Marcelli – INFN Laboratori Nazionali di Frascati - 18 shifts assigned

Rolling Projects

- 08-01 1024** Scientific area or the Proposal: Earth and Environment / Hard Condensed Matter Science
Dr. Paola Luches, Ist. Nanoscienze CNR & Uni Modena-Reggio Emilia - 18 shifts assigned, 15 shifts requested
- 08-01 1030** Scientific area or the Proposal: Fundamental Science / Life Sciences
Prof. Francesca Monti, Univ Verona - 18 shifts assigned, as requested
- 08-01 1025** Scientific area or the Proposal: Fundamental Science / Chemistry
Dr. Daniela Valensin, Univ Siena - 12 shifts assigned, as requested
- 08-01 1028** Scientific area or the Proposal: Energy / Applied Materials Science
Dr. Gabriele Giuli, Univ Camerino - 18 shifts assigned, as requested
- 08-01 1020** Scientific area or the Proposal: Other Functional material / Chemistry
Prof. Paolo Ghigna, Univ Pavia - 6 shifts assigned, as requested

Rolling Projects – Accepted on Reserve List

- 08-01 1027** Scientific area or the Proposal: Earth and Environment / Environment
Dr. Giovanni Orazio Lepore, IOM-CNR, LISA CRG - 18 shifts suggested - Reserve List 1
- 08-01 1021** Scientific area or the Proposal: Health / Chemistry
Prof. Paolo Ghigna, Univ Pavia - 18 shifts requested - Reserve List 2
- 08-01 1023** Scientific area or the Proposal: Other Functional Materials / Applied Materials Science
Dr. Andrea Sanson, Univ Padova - 15 shifts requested - Reserve List 3

The Commission may be contacted at this e-mail address: commissione.gilda@cnr.it

The next deadline for proposal submission on the italian beamtime quota at LISA is **November 8th 2016**
