**X-RAY AND NEUTRON SCIENCE**
**INTERNATIONAL STUDENT SUMMER PROGRAMME**
**AT ESRF / ILL AUGUST 29 - SEPTEMBER 23, 2016 GRENOBLE**

**SCOPE**

The ESRF / ILL International Student Summer Programme on X-Ray and Neutron Science is aimed at undergraduate students. It will consist in a 4-week experimental project embedded in a research group of ESRF or ILL, together with a series of introductory lectures on the principles and applications of X-ray and neutron science (magnetism, materials science, soft matter, structural biology, imaging, etc.).

**LOCATION**

The Summer Programme will take place at the European Photon & Neutron Science Campus (EPN), hosting the ESRF and ILL, located in Grenoble France.

**ELIGIBILITY**

Undergraduate students from a Member Country (or Scientific Associate Country) or ESRF or ILL are eligible for the Summer Programme (see detailed list on web site below). The number of participants is limited to about 20.

**DEADLINE FOR APPLICATIONS**

April 1st, 2016

**FINANCIAL SUPPORT**

All selected participants will receive **financial support and free accommodation** in Grenoble.
